LOCAL MATTERS.

THE DIFFICULTY BETWEEN SENATORS SMITH AND STOVALL AMICABLY SETTLED .-Since the adjournment of the Legislature (on Tuesday last) it has been reported that Senators Smith of Nelson and Stoyall of Henry were engaged in a correspondence growing out of the "spat" which occurred between those gentlemen the night the General Assembly adjourned. The correspondless be gratified to know the fact.

Senator Smith's friends assert that he was sorely tried in the affair, and that he was very unjustly and badly treated by Mr. Stovall; while the friends of the latter gen-Such testimony is overgowering, and is indeed confirmator of the best news which can co (e) to flumanity. The Warper's Safe Remedies consist of the Safe Kidney and Liver Cure, the Safe Nervine, safe Tonic, Safe Pills, and safe Bitters—all of which are made up of pure ingredients, and are most effective in their offices. These statements are most effective in their offices, These statements are most effective in their offices. These statements are most effective in their offices, Smith that the general charge of Mr. Smith that he (as well as five other senators) bad "dodged" the vote on Mr. Henry's resolutions was sufficient cause for him to use the language he did use that night. One of the five senators referred to (Mr. Riddle-berger), it is stated, wrote Mr. Smith the next day, during the correspondence which these two gentlemen had in this connection. resolutions was sufficient cause for him to combine the greatest courtesy with their these two gentlemen had in this connection, as follows:

"At no time did I feel any bad blood in the matter, or intend any offence to you, I report a total of 582—white, 294; colored, being highly amused at the whole perform288.

THE HEALTH OF RICHMOND.

Annual Report of the President of the Board.

INTERESTING REVIEW OF THE BOARD-OUR STREETS, ALLEYS, AND SEWERS-GENERAL CONDITION OF THE CITY-BIRTHS, DEATHS, AND MARRIAGES-CATTLE AND CATTLE DE EASES-QUARANTINE-IMPORTANT SUGGES-TIONS AND RECOMMENDATIONS, &C., &C.

The annual report of the Board of Health—Dr. J. G. Cabell president—has been prepared and forwarded to the Mayor to be printed in the bound volume of an-INDICATIONS FOR SUNDAY.—For the Middle Atlantic States, decreasing pressure, easterly winds, higher temperature during Sunday, cloudy weather, with light rain or which the institution is supplied, and sugments that the inmates could supply nurses gests that the inmates could supply nurses and attendants for a free hospital, which is needed here.

The Board also recommends that there be appointed at least six physicians to care for the poor who do not desire to go to the almshouse, and that these physicians should be paid adequate salaries. The report makes appropriate reference to the Sanitary Police and the Assistant Superintendent of the Chain-gang.

In reference to other matters we quote: The importance of the registration of births has not thus far been appreciated by the public. Such returns as we furnish are incomplete, but we publish them to show our anxiety to excite more interest on this subject. We carefully preserve and record annually such statistics, obtained by the house-to-house visitation of the registo both parties, and their friends will doubtall impertinent, inquirers. They will in future prove useful, and will in this city, as elsewhere, be regarded as essential in many cases as in the disposition of property. We cannot understand why the visits of these officers should not always be welcomed, and every facility afforded for correct informa-tion. In the discharge of these duties they

> desire to procure reliable statistics.
>
> The number of live births registered during the past year was 1,912, and 171 stillbirths were reported.

MARRIAGES.

Our report under this head presents a smaller number than in the last year. We

MORTUARY LIST.

With an increasing population, we may reasonably expect a larger mortuary list. We record 1,608 deaths during the year 1879—white, 732; colored, 876. The death-rate has increased in the past year. We may reasonably expect fluctuations. rate has increased in the past year. We may reasonably expect fluctuations in this respect, but this advance should admonish us to make an increase in the force allotted to the Board for cleaning the city, for it will be remembered that during long and repeated droughts we have not the benefit of heavy rains, the best scavengers for a city situated as ours is. Every citizen will accord to the Board a foll endorsement of the efforts made to perform its duties with the limited means at disposal. Had their exertions been seconded by the individual cooperation of the heads of families, the city during the periods of excessive drought would have been kept in a more cleanly condition.

The policy of the services which he services redeated by fees suitable to the services redeated by fees suitable to the services which he services which he services which he could forge with any hope that it would be accepted unchallenged in place of those he had so long used.

Even if he had successfully forged and used another name in place of Jeter & Dicksinson to meet the notes maturing this month, it would not have been long before detection would have overtaken him. It came to the knowledge of the executivity of Dr. Jeter knowledge. In your wisdom you have along the course of any city sewer shall be reduced to this succert to the services which he could forge with any hope that it would be accepted unchallenged in place of those he had so long used.

Even if he had successfully forged and used another name in place of Jeter & Dicksinson to meet the notes maturing this month, it would not have been long before detection would have overtaken him. It came to the knowledge of the executivity of Dr. Jeter knowledge of the executivity of the economy, independently of comfort, also accorded to the heads of families, the city divided to comment to the heads of families, the city divided to comment to the heads of the system of sewers. Their benefits are the inderest now manifested in this expendence of those he had so long used another n

The effects of several diseases, appropriately called "fifthy diseases," and regarded as preventable, would have been lessened. We allude particularly to scarlet-fever and diphtheria. The surroundings of one family may jeopardize the health of a whole an unasual secretion of saliva; slimy or furred an unasual secretion of saliva; slimy or furred an unasual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with lag; thorities in the discharge of their duties.

But with you, gentlemen, rests the sponsibility of clothing these authorities with ample powers and ample means; and failure in either respect will necessarily and properly be transferred, with its atstrikes every one with amazement. mendation. What they have left undone should encourage you to supply a more efficient and reliable force equal to our wants and the exigencies which may annually arise. We desire a paid corps of ablebodied men to do this work. It is possible that this proposition will be forced upon forcible manner than we can now pre-

This is a proper time to call your attention to this subject. Fortunately, hereto-fore the occasions have been rare in which Abrendt; Higgins, Mr. George W. Den- to guard our city from the danger of introham; Lord Hammond, Mr. Robert L. ducing certain diseases. During the past dorp; Totbury Simms, Mr. John E. Rei-bert; Spriegs, Mr. James T. Galloway; which caused any solicitude. That was the "barque Troas" in ballast from Jacob, Mr. James Riley; Barnes, Mr. James Havana. While the captain reported that he remained in Hampton Roads for several days, and no case of sickness had occurred he sailed, and learning from some of the crew that one of their number was left in character, and its influence be extended before any measures can be adopted, because bodies. At present your health authorities

ed by a fittle assistance from the General Government, has secured a depth of water in our river which enables vessels of large tonnage to approach our wharves, and with the prospect before us of obtaining addi-A-Georgie Burress, F. Belle Saunders.
Attendance for the week, 90 per cent. ernment, with a continuance of exertion on our part we may reasonably expect to make tual for needed reform, such suggestions and exporting centres of the country. With this increased trade we may fear that occasion will ther arise for constant supervision to guard the health of our citizens. Our present laves are too lax and complicated.

Shall the burden of establishing and maintaining quarantine devolve upon us when there is, an opportunity of conducting these experises at less cost than when maintained by t'ue different cities along the river? One QUARANTINE STATION stablished in Hampton Roads will guard

States' rights on this question. The General Government will prove that it is not only able but willing to afford us relief. During the past year, in the month of No-vember, we had a conference with the presi-dent of the National Board of Health, then president of the American Public Health Aspresident of the American Public Health Association, just before the meeting of that body in Nashville. The president of this Board, after consulting such mc__ers of your bodies as opportunity allowed, pledged the cooperation of our city authorities in such measures as were likely to relieve this city from the expense of quarantine, which at the same time would ensure a guarantee.

that her interests would be protected by the General Government in the r-tablishment of quarantine at the mouth of Jomes river. We are sait-sed that this will be accomplished if action is taken on your part endorsing the proposition, and requesting our representatives to favor the scheme.

We have the most CONCLUSIVE APSURANCE

that the action contemplated by the National Board of Health will not cause the slightest obstruction to commerce, except in the contingency of the arrival in Hampton Roads of an actually infected vessel, when she will be detained long enough to discharge and disinfect cargo, to cleane and disinfect the vessel, and properly to and disinfect the vessel, and properly to care for the siek.

In this connection it is well to mention that the National Board of Health guarantees to all cities which adopt their rules as to quarantine, both by land and water, their

VENTILATION OF HOUSES.
